PREFACE

New Mexico Chapter Laws are numbered in the order in which the Governor signs them.

The Governor has line-item veto power over bills containing appropriations. Partial vetoes are designated by striking through the deleted language.

The designation “CS/” or “FL/” before a bill means “Committee Substitute” or “Floor Substitute” indicating that a House or Senate Committee, or the entire House or Senate during a floor session, passed a rewritten version in place of the original bill.

The effective date of the signed bill is shown at the end of the chapter summary. Unless a specific effective date is listed in the bill, it is effective 90 calendar days after the close of the session (June 19, 2015 this year) or, if it is an appropriation, on July 1, the beginning of the new fiscal year. Bills with an emergency clause (*) become effective on the date signed by the Governor.

Proposed Constitutional Amendments (CA) are in the form of joint resolutions passed by both houses and are numbered in order of final passage. They do not require the Governor’s signature, but are enacted if they receive voter approval by a majority vote at a statewide general or special election.

Joint Resolutions and Memorials are expressions of intent and usually request state agencies or committees to perform some task and report back to the Legislature. They have passed both houses, but do not require the Governor’s signature. Memorials are also expressions of intent or request for some action but need only pass the house in which they were introduced. They do not require the Governor’s signature.

All bills that were vetoed by the Governor this year are reported at the end of the Summary. A “pocket veto” designation means the Governor took no action on the bill within the required time limit. This effectively vetoes the measure.

More legislative information is available at the Legislature’s web site at www.nmlegis.gov.

PREFACE

New Mexico Chapter Laws are numbered in the order in which the Governor signs them.

The Governor has line-item veto power over bills containing appropriations. Partial vetoes are designated by striking through the deleted language.

The designation “CS/” or “FL/” before a bill means “Committee Substitute” or “Floor Substitute” indicating that a House or Senate Committee, or the entire House or Senate during a floor session, passed a rewritten version in place of the original bill.

The effective date of the signed bill is shown at the end of the chapter summary. Unless a specific effective date is listed in the bill, it is effective 90 calendar days after the close of the session (June 19, 2015 this year) or, if it is an appropriation, on July 1, the beginning of the new fiscal year. Bills with an emergency clause (*) become effective on the date signed by the Governor.

Proposed Constitutional Amendments (CA) are in the form of joint resolutions passed by both houses and are numbered in order of final passage. They do not require the Governor’s signature, but are enacted if they receive voter approval by a majority vote at a statewide general or special election.

Joint Resolutions and Memorials are expressions of intent and usually request state agencies or committees to perform some task and report back to the Legislature. They have passed both houses, but do not require the Governor’s signature. Memorials are also expressions of intent or request for some action but need only pass the house in which they were introduced. They do not require the Governor’s signature.

All bills that were vetoed by the Governor this year are reported at the end of the Summary. A “pocket veto” designation means the Governor took no action on the bill within the required time limit. This effectively vetoes the measure.

More legislative information is available at the Legislature’s web site at www.nmlegis.gov.
