I. PURPOSE
This policy is intended to provide commissioned personnel with direction on when and how to use body-worn recording devices (BWRD) so that officers may reliably record their contacts with the public in accordance with departmental policies and applicable laws. This commitment is designed to promote officer safety, strengthen community trust, and document events to assist with investigations and training.

II. POLICY
It is the policy of this department that commissioned personnel, except as may be specified herein, shall activate the BWRD when such use is appropriate to the proper performance of his or her lawful official duties, where the recordings are consistent with this policy and law. This policy does not apply to the department authorized use of recording devices used in authorized undercover operations. All images and sounds recorded by BWRD and audio equipment are the exclusive property of this department. Accessing, copying, or releasing files for non-law enforcement purposes is strictly prohibited unless authorized by the Chief of Police or his designee. This policy may be amended as applicable due to changes in policies or law and additional direction may be provided by the Chief of Police in a directive.

V. Use of BWRD

B. In accordance with New Mexico State law (30-12-1), department personnel are not required to inform every individual being contacted that the recording device is enabled; however, it is recommended they do so as part of their initial contact
with members of the public. Department personnel may inform arrestees when they are recording, unless doing so would be unsafe, impractical, or impossible.

C. Department personnel that are not involved in direct interactions with witnesses/victims/suspects and are performing duties, including but not limited to scene security, supervision, guard duty, holding a perimeter, administrative duties, etc., shall not be required to record these activities.

Conclusion will depend on the type of incident and individual circumstances, but typically, the incident has concluded when department personnel terminates contact with the individual or has cleared the scene. When authorized by a supervisor, department personnel may cease recording. If the immediate activation of the BWRD is not feasible due to immediate risk to the safety of the department personnel or others, the department personnel will activate the BWRD at the first available opportunity when the immediate threat has dissipated and it is safe to do so.

E. This policy identifies those situations in which activation of the BWRD is mandatory, department personnel have discretion to manually activate the device any time the officer believes it would be appropriate or valuable to document an incident. In exercising this discretion, personnel should be aware of, and sensitive to, individuals' reasonable privacy expectations. The BWRD may only be activated for legitimate law enforcement purposes.

F. Mandatory Recording Incidents
   Subject to the limitations as may be specified herein, department personnel shall use Department-issued or authorized BWRDs to document the incidents listed below:
   1. All use of force encounters, including contacts leading up to the use of force when department personnel can reasonably foresee a use of force may occur.

G. Non-recording incidents
   Department personnel shall not use recording devices to document:
   1. Encounters with undercover department personnel or confidential informants.
   2. Personal activities or conversations of department or town personnel that do not involve calls for service or authorized by the Lieutenant or Chief of Police.

   6. Locations prohibited by law, unless permission is obtained to record (e.g. FBI building, restricted areas in Department of Energy research facilities, etc.)
   7. Locations where individuals may have a reasonable expectation of privacy, such as: restrooms, locker rooms, the presence of medical personnel, or in hospitals. (Katz v US.) However, department personnel will record in these locations if the contact is subject to mandatory recording set forth in Section F Mandatory Recording Incidents above, if the totality of the circumstances leads the department personnel to believe that recording is appropriate.

H. If department personnel inadvertently record any of the encounters listed above, they may follow, after contacting their immediate supervisor, the redaction procedures specified hereafter.

I. Department personnel shall not stop recording in response to an individual’s request if the recording is required by this policy or the department personnel deems that continued recording is necessary. If the recording is not mandatory, the department personnel may evaluate the situation and, when appropriate, honor the individual’s request.

K. During tactical activations, tactical units may turn off their BWRDs during planning and decision-making. Due to the duration of tactical activations, in order to conserve battery life, tactical units may turn off their BWRDs when not conducting directed action. BWRDs shall be activated during directed action, which may cause a response from the subject.

Ensure that BWRDs assigned to them are functioning properly at the beginning and end of each shift according to the instructions of their system's manufacturer and shall report immediately any improperly functioning equipment to a supervisor.
