

ADOPTED BY THE
MAYOR AND COUNCIL ON

ORDINANCE NO. _____

RELATING TO PLANNING AND ZONING; LIMITING THE USE OF LAND FOR REGISTERED NONPROFIT MEDICAL MARIJUANA DISPENSARIES AND THE GROWTH AND CULTIVATION OF MEDICAL MARIJUANA, AMENDING THE TUCSON CODE, CHAPTER 23, LAND USE CODE, SECTIONS 2.5.4, 2.5.5, 2.7.2, 2.7.3, 3.5.9, 5.3.12, AND 6.3.10; AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF TUCSON, ARIZONA AS FOLLOWS:

SECTION 1. The Mayor and Council make the following legislative findings:

1. Proposition 203, the Arizona Medical Marijuana Act, will appear on the November 2, 2010, statewide ballot and, if approved by voters, will provide for certain medical marijuana use, sale and cultivation to include the establishment of medical marijuana dispensaries in the State of Arizona, to include the City of Tucson.

2. The Federal Controlled Substances Act, and applicable regulations classify marijuana as a "Schedule I" drug and consequently prohibit its use in any manner with exceptions only for research purposes.

3. The possession, delivery, manufacture, cultivation and sale of marijuana as contemplated by Proposition 203 are currently prohibited by Arizona State Law.

4. The Federal Food and Drug Administration (FDA) continues to support the placement of marijuana as a “Schedule I” controlled substance with no currently accepted medical use in the United States.

5. Past evaluation by federal agencies including the FDA, Substance Abuse and Mental Health Service Administration (SAMHSA), and National Institute for Drug Abuse (NIDA) have concluded that no sound scientific studies support medical use of marijuana for treatment in the United States.

6. FDA as the federal agency responsible for reviewing the safety and efficacy of drugs, DEA as the federal agency charged with enforcing the Controlled Substances Act, and the Office of National Drug Control Policy, as the federal coordinator of drug control policy, do not support the use of smoked marijuana for medical purposes.

7. Evaluation of several California cities’ experience with medical marijuana dispensaries and the opinion of the California Police Chiefs’ Association have indicated negative secondary neighborhood affects associated with the operation of medical marijuana dispensaries including: illegal drug sales, at a price less than dispensary prices, to dispensary patrons; marijuana use in and around dispensaries; non-residents being attracted to the community to secure marijuana; DUI arrests related to marijuana purchased at dispensaries; burglaries of dispensaries; drug dealers posing as medical marijuana users to purchase and resell marijuana illegally; robbery of medical marijuana patrons; thefts in and around dispensaries to support legal and illegal drug commerce; negative affects on surrounding businesses resulting from a concentration of criminals

associated with the dispensary; and illegal sale of drugs other than marijuana in dispensaries.

8. Robberies, assaults and burglaries of dispensaries may be under reported by dispensaries and crime statistics may consequently inaccurately underestimate the incidence of such crimes, and dispensaries may account for a disproportionate number of such incidents in comparison to other business uses.

9. Dispensaries, by virtue of their operation: may be the repositories of large amounts of cash and marijuana and consequently operators have been attacked at their dispensaries and at home; dispensaries have been regularly burglarized; dispensaries account for other negative affects on the community such as sales of drugs to minors, loitering, heavy vehicle traffic, increased noise and robbery of dispensary customers.

10. The Director of the Office of National Drug Control Policy reports that in states such as Colorado, youths who receive information that marijuana is a medicine assume that marijuana use is safe, but science is clear that marijuana use is harmful and associated with dependence, respiratory and mental illness, poor motor performance, and cognitive impairment.

11. Unregulated dispensaries can expand enormously within a municipality; and the current City of Tucson Land Use Code does not specifically address or regulate establishment, location or operation of marijuana dispensaries.

12. Proposition 203 expressly authorizes cities to enact reasonable zoning regulations that limit the use of land for registered nonprofit medical marijuana dispensaries.

13. Arizona law permits cities to enact zoning regulations in order to conserve and promote the public health, safety and general welfare and regulate the use of buildings, structures and land as between agriculture, residence, industry, business and other purposes.

14. It is necessary to restrict, or prohibit the use or division of real property within the City of Tucson in order to protect the public's health by establishing appropriate regulation of medical marijuana dispensaries, cultivation facilities and home cultivation.

15. Regulations defining permitted location of dispensaries, cultivation facilities and home cultivation uses (collectively referred to here as "facilities") and providing for the minimum separation of such facilities from uses such as churches, libraries, schools, parks, day care centers, licensed treatment centers, and other marijuana facilities will reduce or eliminate the threat to public health, safety and welfare potentially caused by medical marijuana uses.

16. The regulations, limitations and prohibitions established in this Ordinance are necessary to protect and preserve the public's health and safety.
