

Dear business owner:

Whether you're a startup or a returning business renewing your registration, we want to help you succeed. Businesses like yours generate money for their owners and employees and pay taxes that contribute to public services that improve the quality of life for all residents. Your success enriches the entire community.

That's why we offer you resources from the Grow It! project. Our Grow It! website features links to public and private organizations that offer personalized assistance, low-cost loans, grants, training, networking, technical support and other services – some at no cost to you. You'll also find how-to guides for setting up your business and planning for profitability.

Mayor Sam Cobb

We want you to succeed, and we extend more than our best wishes. We offer tangible resources and many types of assistance. Don't hesitate to call me or other staff if we can help you in any way.

Sincerely,
Mayor Sam Cobb
